Subject: FW: Refugio Incident - Section 1&4 Final Design Plan Comment Responses 07.22.2015

Good Morning,

After submitting the "Section 1 Emergency Grading Plan" and "Section 4 Remedial Excavation Restoration Plan" to the county no technical changes were requested. Feedback was provided about the plans (as seen in the attachment "Comment Responses to Sect 1 and 4 Design and Reveg" document.) Seeing how there were no changes to these plans since they were last submitted to the UC for approval can the UC members respond to this e-mail and indicate if they support and approve the following plans:

- 1) Section 1 Emergency Grading Plan

2) Section 4 Remedial Excavation Restoration Plan

Respectfully,

Ryan Andersen

Planning Section Chief

Refugio Incident

Chris,

We are fine with the segment 1 and 4 excavation and grading plans, and look forward to further review of the revegetation plan for segment 4. The site visit with county staff yesterday was very helpful in review of the plan. We appreciate the time you and your technical consultants spent with us.

Dianne

Good morning,

Please find the attached comment responses. Based on the comments and technical revisions requested, the following summaries for each plan are listed below. Please respond to me if there are any further technical design changes that are required in order to submit any of the three plans.

Section 1 (PL Excavation) Emergency Grading Plan

Seeing that there are no technical comments leading to necessary changes of this plan, Plains propose the submission of the *Section 1 Emergency Grading Plan* to the Refugio Incident - Unified Command for approval to complete the backfill and grading activities outlined within.

Section 4 (Bluff Excavation) Remedial Excavation Restoration Plan

Seeing that there are no technical comments leading to necessary changes of this plan, Plains proposes the submission of the *Section 4 Remedial Excavation Restoration Plan* to the Refugio Incident - Unified Command for approval to complete the pipe culvert installation, backfill and grading activities outlined within.

Section 4 Revegetation Plan

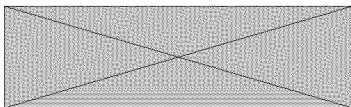

Seeing that there were technical comments leading to necessary changes of this plan, Plains **will amend** the *Section 4 Revegetation Plan* and resubmit it to the stakeholders for technical review.

Subject: Refugio Incident - Section 1&4 Final Design Plans

All,

Please find the revised versions of the following plans:

- (1) Section 1 (PL Excavation) Emergency Grading Plan;
- (2) Section 4 (Bluff Excavation) Remedial Excavation Restoration Plan; and
- (3) Section 4 Revegetation Plan.

These plans have incorporated all of the comments received to date. If there are no additional comments **received by 10:00 am Tuesday July 21,** Plains would like to submit the plans to the Unified Command for their review.

If you have any questions, comments, or concerns, please respond to me as soon as possible.
